# Allyl amyl glycolate Brochure

Name: Allyl Amyl Glycolate  
Other names: Allyl 2-methylbutyl glycolate (mixture of isomers)  
CAS: 67634-00-8 / 67634-01-9  
Source: Synthetic  
Purity: Typically  $\geq 98\%$   
Appearance: Colorless to pale yellow liquid

## Key Applications

Powerful fruity modifier in fine fragrances, body sprays and perfumed consumer products.  
Adds bright, juicy pineapple and mixed tropical-fruit notes to citrus, fruity and floral accords.  
Commonly used in fragrances for detergents, fabric softeners, air care and personal care where strong diffusion and long-lasting freshness are required.

## Product Advantages

High odor strength and excellent diffusion, effective at very low dosage levels.  
Provides a modern, sparkling fruity lift without becoming overly sweet, supporting both fresh and gourmand styles.  
Good stability in many functional bases (soaps, cleaners, laundry products), making it suitable for large-scale fragrance applications.

## Recommended Usage Levels

|                                           |              |
|-------------------------------------------|--------------|
| Fine perfumery and body sprays            | 0.05% – 1.0% |
| Personal care (shower gel, shampoo, etc.) | 0.05% – 0.5% |
| Household & fabric care fragrances        | 0.05% – 0.8% |
| Concentrated fragrance bases              | 0.5% – 3.0%  |

## Packaging and Storage

Packaging: 200 kg / drum  
Storage: Store in a tightly closed container in a cool, dry, well-ventilated place, away from heat and direct sunlight.  
Shelf life: Typically 2 years under recommended storage conditions.
