Ebanol

黑檀醇

Black sandalwood can add rich sandalwood and woody notes to perfumes, enhancing depth and longevity. It is commonly used in woody fragrance formulas to create a fuller and more radiant scent.

ODOWELL

Ebanol Brochure

Product Name: Ebanol

Chemical Name: Muscosandrol (Black Sandalwood)

CAS Number: 67801-20-1

Purity: ≥ 95%

Molecular Formula: C14H24O

Appearance: Colorless to pale yellow liquid
