Ambergris Ketone

龙涎酮

This highlights its synthetic nature, ambergris-like scent, and warm, layered character, fitting its main fragrance profile and applications in perfumery and personal care.

ODOWELL

Ambergris Ketone Brochure

Product Name: Iso E super;ambergris ketone

Chemical Name: 1-(1,2,3,4,5,6,7,8-Octahydro-2,3,8,8-tetramethyl-2-naphthalenyl)ethan-1-one

CAS Number: 54464-57-2

Molecular Formula: C₁₆H₂₆O

Purity: 99%

Appearance: White powder

Odor: Smooth, woody, amber-like

Key Applications

Perfumes & Fragrances: Functions as a versatile blender and fixative in fine fragrances, oriental perfumes, woody colognes, and amber accords. Often used to add depth and longevity to both top and base notes.

Home Fragrance: Enhances the scent profile of candles, diffusers, and room sprays, creating a comfortable and sophisticated ambiance.

Personal Care: Improves the overall fragrance performance in soaps, lotions, shampoos, and detergents, imparting a pleasant, long-lasting scent.

Product Advantages

Enhances depth and longevity.

Excellent blending properties.

Widely compatible with other fragrance ingredients.

Packaging and Storage

Packaging: Available in various sizes, including 10g for sampling and 200kgs/durm.

Storage: Store in a tightly closed container, protected from light and heat. Keep in a cool, dry place.

Shelf life: 2 years
