CIS-6-Nonen-1-ol Brochure

Name: CIS-6-Nonen-1-ol

Source: Synthetic

CAS: 35854-86-5

MF.: C9H18O

Purity: $\geq 98\%$

Appearance: Colorless to pale yellow transparent liquid

Odor: fresh cucumber

Key Applications

Essential ingredient for creating “ green” , fresh, and natural scent profiles in fragrance formulations.

Imparts vivid cucumber-like freshness to elevate top notes and evoke a dewy, garden-fresh atmosphere.

Widely used for signature accords in personal care, fine fragrance, and home care products.

Product Advantage

Delivers outstanding green, crisp cucumber aroma recognized as the standard for natural green notes.

Exceptional effectiveness even at low dosages, enhancing overall scent composition while maintaining clarity.

Provides a versatile, natural freshness ideal for modern, eco-inspired formulations.

High molecular stability ensures consistent performance across different product formats.

Recommended Usage Levels

Fine perfumery	0.1% – 1.0%
Cosmetics and personal care	0.02% – 0.2%
Home fragrances and cleaning products	0.1% – 0.5%
Fragrance prototyping and concentrated bases	0.1% – 1.0%

Packaging and Storage

Packaging: 1kg or 5kg

Storage: Store in a cool, dry place away from direct sunlight and sources of heat.

Shelf life: Typically at least 6 months under recommended storage conditions
