Floramelon

新洋茉莉醛

Floramelon is a powerful synthetic floral aldehyde renowned for its fresh lily of the valley, watery melon and tender white flower character, widely used to create radiant, modern muguet effects in fine fragrances, cosmetics and laundry care products.

ODOWELL

Floramelon Brochure

Name: Floramelon
Source: Synthetic
CAS: 1205-17-0
Appearance: Colorless to pale yellow transparent liquid
Packaging: 200 kg / drum

Key Applications

Powerful fresh floral aldehyde for lily of the valley, white floral and green-floral fragrance families.
Creates clean, watery muguet and tender floral effects in fine fragrances, cosmetics and personal care.
Widely used in modern floral accords, fresh laundry and shower gel fragrances requiring radiant top-to-heart lift.

Product Advantage

Intense, diffusive floral character combining fresh lily of the valley, green melon and dewy white flower nuances.
Excellent blooming and radiance, providing airy freshness and modern transparency even at moderate dosage levels.
Versatile performance across fragrance types, enhancing citrus, aquatic, aldehydic and soft floral compositions with natural petal-like tenderness.

Recommended Usage Levels

Fine perfumery	0.5% – 5.0%
Cosmetics & personal care	0.2% – 2.0%
Laundry & shower gel fragrances	0.5% – 3.0%
Experimental floral bases	1.0% – 10.0%

Packaging and Storage

Packaging: 200 kg / drum
Storage: Store in a cool, dry place away from direct light and heat sources.
Shelf life: Typically two years under recommended storage conditions.
