Beta Ionone

乙位紫罗兰酮

Beta Ionone is a synthetic ionone ketone renowned for its violet floral character with prominent woody, orris-like drydown, widely used as a fixative and key building block in fine fragrances, floral accords, oriental perfumes and soap compositions.

ODDOWELL

Beta Ionone Brochure

Name: Beta Ionone
Source: Synthetic
CAS: 14901-07-6 / 79-77-6
Odor profile: Violet floral with prominent woody character
Appearance: Slightly yellow to pale yellow viscous liquid

Key Applications

- ◆Essential violet-woody ketone for fine fragrances, floral bouquets and oriental compositions.
 - ◆Provides violet flower, orris and woody depth in perfumes, cosmetics and personal care products.
 - ◆Widely used in soap fragrances, candles and functional scents requiring classic floral-woody balance.
-

Product Advantage

- ◆Rich violet floral character with dominant woody, orris-like drydown and subtle fruity nuances.
 - ◆Excellent fixative properties with strong tenacity across diverse fragrance bases and product formats.
 - ◆Versatile building block that enhances rose, jasmine, citrus and oriental accords with natural woody-violet signature.
-

Recommended Usage Levels

Fine perfumery	0.1% – 3.0%
Cosmetics & personal care	0.2% – 2.0%
Soap & functional fragrances	0.5% – 5.0%
Concentrated bases & candles	1.0% – 8.0%
